

(n)Code Solutions CA

A DIVISION OF GUJARAT NARMADA VALLEY FERTILIZERS COMPANY LIMITED

PROCEDURE FOR INSTALLING ETOKEN DRIVERS

VERSION: PKICLIENT 4.55

STEP 1:

Put in the Software CD into the CD drive and wait for a while. The CD is in auto run format hence will run automatically and the below screen will appear -

	DISCLAIMER
	SYSTEM REQUIREMENTS
	Minimum Hardware Requirements : Pentium II 350 MHz, 128 MB RAM
	Minimum Software Requirements : Win9x, IE6, DirectX 9.0, Windows Media Player 9, Winzip, Flash Player 6.0, Acrobat Reader 5.0
	Display Properties : 1024x768 at 24-bit true colour
	This CD is programmed to run on Windows
	This CD requires Macromedia Flash plugin. <mark>Click here</mark> to install if you do not have it. You will also need DivX codec installed, which can be installed by clicking here . Please read installation and system requirement instructions carefully before going ahead.
	The disk has been thoroughly scanned and tested at all stages of production, but as with any new software, we still recommend, you run a virus scan before use. It is recommended that you backup any programs and data on your hard drive at all times. Close all other windows and memory resident programs such as screen savers etc, before running the CD
	If your CD is defective, please return it to (n)Code Solutions. The contents provided in the CD are all copyrighted and any content in the CD cant be copied or reproduced without the permission of (n)Code Solutions. This CD will guide you through the complete process of using Digital Signature Certificates with DGFT.

If, due to some problem the CD does not Autorun, please do following steps -

Open Internet Explorer > Tools > Internet Options > Advanced > Security and tick first 3 options for allowing ActiveX content of CD to run on your pc – or, alternatively you may also install as under:

- 1. Keep the (n)Code Resource CD into the CD/DVD drive and hole "Shift" key in keyboard
- 2. Go to "My Computer" > Right Click on CD Rom, Select Explore
- 3. Open the "Code" folder > "Drivers" folder > "eToken Drivers"
- 4. Double-Click on the eToken Drivers Setup file "PKI Client 4.55.msi" and continue with the Installation Wizard by clicking Next > I Accept > Next > Next tab and let the installation progress. Click on "Finish" tab to complete the installation.

For viewing your Digital Signature Certificate in the eToken:

- Click Start > Programs > eToken > eToken Properties. Click "Advanced" and double-click on "GNFC eToken" – under that you will see User Certificates & CA Certificates
- Under User certificates option one can view certificate details viz. Issued To, Issued By, Validity, Serial Number etc.
